Shaare Zedek’s New Comprehensive Cancer Center - Together We Can Build the Future

To ensure that our Shaare Zedek friends and supporters stay safe, we will regrettably not be coming together for our National Dinner this year. We invite you to assist us as we embark on our bold vision to build Shaare Zedek’s new comprehensive Cancer Center. This year our campaign will be in tribute to the strength and courage of our cancer patients at Shaare Zedek and around the world and our compassionate and deeply talented medical heroes.

The Shaare Zedek Cancer Center will provide a holistic approach to cancer care, offering patients cutting-edge technologies and state of the art therapies in an environment of hope. Incorporated into the design of this new, four-floor Cancer Center will be an atrium with gardens and sunlight creating a warm and comforting atmosphere for our patients. The building itself will be designed to look like a butterfly and will inevitably become one of the outstanding visual landmarks of the Jerusalem area.

We are confident that by combining advanced research with clinical medicine, technological progress and compassionate care, we can save lives and ensure that Shaare Zedek’s fight against cancer will be respected around the world. The total cost of this undertaking is estimated at $80 million. Join us in fighting cancer and building the future.

DR. BEN CORN-Deputy Director of the Shaare Zedek Cancer Center and Chairman of the Department of Radiation Oncology

Dr. Corn is a graduate of the accelerated BA/MD track at Boston University. He went on to become a Visiting Fellow in the Cancer Biology Laboratory at Harvard University after which he trained in Oncology at the University of Pennsylvania. After more than 10 years as an academic clinician in Philadelphia, Dr. Corn emigrated to Israel at the age of 36. Once in Israel, he became CEO of Keryx Biopharmaceuticals and then re-entered clinical medicine as Chairman of the Institute of Radiotherapy at Tel Aviv Medical Center (Ichilov Hospital).

In addition to his work as a cancer physician, he and his wife, Dvora, founded Life’s Door. This organization offers workshops to patients with serious illness and their families who need coping tools and emotional support. The “science of hope” has become Dr. Corn’s passion. This spring he received the Humanitarian Award from the American Society of Clinical Oncology (ASCO) - the largest global network of Cancer Care providers.

On behalf of the more than 4,000 doctors, nurses, medical technicians, administration and support staff of Shaare Zedek Medical Center in Jerusalem

Thank You!!!

A pioneer in American public diplomacy through educational and medical assistance

For giving us the tools we needed to help and heal more than 998,000 patients in 2020

Thanks to your support, Shaare Zedek is able to treat the uniquely diverse population of Jerusalem, providing state-of-the-art, compassionate medical care

We are deeply grateful to you and the American people for your support and generosity

Marcie Meier

Los Angeles, CA
Once again it gives us great pleasure to help build the newest addition to Shaare Zedek.

In over 60+ years of our efforts on behalf of Shaare Zedek, we have seen the Hospital grow from strength to strength in serving the people of Jerusalem, the new Cancer Center being just the latest addition.

From a small hospital on Jaffa Road to the magnificent buildings of the present medical center, we proudly display a stone from the holy ground of Jerusalem, dug up during its construction.

Best wishes for continued success.

Harriet and George Blank
“Do not stand idly by while your brothers’ blood is being spilt”

Hamas, Ayatollahs, Hezbollah, the Mynamar Military and the Trump-Biden betrayal of the [Israelite Lost Tribes of] Afghanistan all of which bestows on the world vast numbers of victims, the ignoring of which is on a par with the non-bombing of the rail lines to Auschwitz

Yet tobacco, which also has been a killer, but one geometrically greater (in all five of our beloved homelands) goes virtually unnoticed*

Let us strive to help our nicotine addicted brethren desist from assisting the Hitlers of the world by gassing with their own hands themselves and [via 2nd hand smoke] their families

In view of this self-destructive reality and in recognition that one not part of the solution is an underlying cause of the problem, to remain so politely passive makes this placement of a stumbling block in the path of the blind ever more sinful

Mark Lewis Brecker, Esq.

*Since 9/11 the tobacco industry has directly killed some 6,852,875 Americans (and, by second hand smoke man more as well), thus dwarfing the agony wrought by the animals of September 11th
In recognition of the magnificent work that you do, we are proud to be associated with you
